

FMSFIE Release 2.40 Tables								
Date: 9/20/2004								
Key Column	TablePhysicalName	Table Common Name	TableDefinition	SetName	ClassName	SubclassName	FamilyName	InformationModelCode
455	ACCESSORY	Accessory	This table contains information about accessories	Asset	Facility	Building	Architectural	amfacblgarc
456	ACCESSORY_TYPE_REF	Accessory Type Reference	This table contains information about types of accessories.	Asset	Facility	Building	Architectural	amfacblgarc
85	ADDRESS	Address	This table contains information about a sub-grouping of streets including the county, metropolitan area, congressional district and postal code where it is located, but not the number.	Organization	Core	Base	Generic	omcorbasgen
102	AFFILIATION_TYPE_REF	Affiliation Type Reference	This table contains reference (domain) information about the type of affiliation that a person could have with an organization, asset or object	Organization	People	Base	Reference	ompepbasref
138	AIR_FLOW_DEVICE	Air Flow Device	This table contains information about an air flow device that directs and manipulates the flow of air into or out of a duct assembly.	Asset	Facility	Building	Mechanical	amfacblgmec
417	AIR_FLOW_DEVICE_TYPE_REF	Air Flow Device Type Reference	This table contains reference (domain) information about types of Air Flow Devices.	Asset	Facility	Building	Mechanical	amfacblgmec
131	AIR_HANDLER	Air Handler	This table contains information about an air handler unit which consists of factory made assemblys for heating, cooling, and ventilating purposes. Air handlers are built for indoor use while rooftop units are made to withstand outdoor exposure.	Asset	Facility	Building	Mechanical	amfacblgmec
457	AIR_HANDLER_TYPE	Air Handler Type Reference	This table contains information about types of air handlers.	Asset	Facility	Building	Mechanical	amfacblgmec
361	ALARM	Alarm	This table contains information about alarms.	Asset	Facility	Building	Fire Protection	amfacblgfir
411	ALARM_TYPE_REF	Alarm Type Reference	This table contains reference (domain) information about types of Alarms.	Asset	Facility	Building	Security	amfacblgsec
390	AMPLIFIER	Amplifier	This table contains information about audio amplifiers.	Asset	Facility	Building	Telecommunication	amfacblgtel
418	AMPLIFIER_TYPE_REF	Amplifier Type Reference	This table contains reference (domain) information about types of amplifiers.	Asset	Facility	Building	Telecommunication	amfacblgtel
326	ANGLE_TYPE_REF	Angle Type Reference	This table contains reference (domain) information about different types of structural angles.	Asset	Facility	Building	Structural	amfacblgstr
57	ARCHTL_ACCESS	Architectural Access	This table contains information about architectural components excluding doors that provides accessability within, into, or out of a facility building structure.	Asset	Facility	Building	Architectural	amfacblgarc
60	ARCHTL_CONVEYANCE	Architectural Conveyance	This table contains information about architectural transport components which provide conveyance for human and material loads within, into, or out of a facility building.	Asset	Facility	Building	Architectural	amfacblgarc

FMSFIE Release 2.40 Tables								
Date: 9/20/2004								
Key Column	TablePhysicalName	Table Common Name	TableDefinition	SetName	ClassName	SubclassName	FamilyName	InformationModelCode
301	ARCHTL_GRADE_QUALITY_TYPE_REF	Architectural Grade Quality Type Reference	This table contains reference (domain) information about the quality of doors.	Asset	Facility	Building	Architectural	amfacblgarc
58	ARCHTL_USAGE_TYPE_REF	Architectural Usage Type Reference	This table contains reference (domain) information about the types of uses or functions architectural components can perform, or suitable locations and conditions in which architectural components can be installed and used.	Asset	Facility	Building	Architectural	amfacblgarc
1	ASSET	Asset	This table contains information about federal real property and other related entities based on their classification and need to support organizational requirements.	Asset	Core	Base	Generic	amcorbasgen
20	ASSET_CLASS_REF	Asset Class Reference	This table contains reference (domain) information about DoD defined classes and those sub-classes in which they can be divided. Also within the table are groupings of assets that are not DoD defined classes but ones that are of practical use.	Asset	Core	Base	Reference	amcorbasref
184	ASSET_OBJECT_PARAMETER	Asset Object Parameter Cross Reference	This table contains a cross reference of information about parameters of asset objects.	Asset	Core	Base	Generic	amcorbasgen
117	BATHROOM_FIXTURE	Bathroom Fixture	This table contains information about a plumbing fixture that contains a receptor which receives a supply of hot or cold water used for personal hygiene.	Asset	Facility	Building	Plumbing	amfacblgmec
420	BATHROOM_FIXTURE_TYPE_REF	Bathroom Fixture Type Reference	This table contains information about types of bathroom fixtures.	Asset	Facility	Building	Mechanical	amfacblgmec
419	BATTERY	Battery	This table contains information about batteries.	Asset	Facility	Building	Electrical	amfacblgele
421	BATTERY_TYPE_REF	Battery Type Reference	This table contains information about types of batteries.	Asset	Facility	Building	Electrical	amfacblgele
333	BEAM_BRIDGING_TYPE_REF	Beam Bridging Type Reference	This table contains reference (domain) information about different types of structural bridging to prevent beam movement.	Asset	Facility	Building	Structural	amfacblgstr
324	BEAM_CONNECTION_TYPE_REF	Beam Connection Type Reference	This table contains reference (domain) information about different types of structural beam connections.	Asset	Facility	Building	Structural	amfacblgstr
352	BED	Bed	This table contains information about beds.	Asset	Facility	Building	Interior Design	amfacblgint
140	BOILER	Boiler	This table contains information about a boiler which is a closed vessel in which a liquid is heated with or without vaporization.	Asset	Facility	Building	Mechanical	amfacblgmec
211	BOILER_CLASS_REF	Boiler Class Reference	This table contains reference (domain) information about the size of the boiler.	Asset	Facility	Building	Mechanical	amfacblgmec

FMSFIE Release 2.40 Tables								
Date: 9/20/2004								
Key Column	TablePhysicalName	Table Common Name	TableDefinition	SetName	ClassName	SubclassName	FamilyName	InformationModelCode
212	BOILER_TYPE_REF	Boiler Type Reference	This table contains reference (domain) information about boiler unit types and/or usage timeframes..	Asset	Facility	Building	Mechanical	amfacblgmec
386	BOOTH	Booth	This table contains information about interior and exterior telephone booths.	Asset	Facility	Building	Telecommunications	amfacblgtel
422	BOOTH_TYPE_REF	Booth Type Reference	This table contains information about types of booths (e.g., telephone).	Asset	Facility	Building	Telecommunications	amfacblgtel
389	CABLE	Cable	This table contains information about cables (e.g., telecommunications, etc.).	Asset	Facility	Building	Telecommunications	amfacblgtel
381	CABLE_BUFFER	Cable Buffer	This table contains information about communication and other types of cable buffers areas, within a set distance from the expected location of the cable.	Asset	Facility	Building	Telecommunicatoins	amfacblgtel
408	CABLE_TYPE_REF	Cable Type Reference	This table contains reference (domain) information about types of cables (e.g., telecommunications, electrical, etc.).	Asset	Facility	Building	Telecommunication	amfacblgtel
401	CALL_STATION	Call Station	This table contains information about call stations (e.g., hospital call stations).	Asset	Facility	Building	Telecommunication	amfacblgtel
459	CALL_STATION_TYPE_REF	Call Station Type Reference	This table contains information about types of call stations.	Asset	Facility	Building	Telecommunications	amfacblgtel
340	CASEWORK	Casework	This table contains information about casework.	Asset	Facility	Building	Interior Design	amfacblgint
23	CATEGORY_CODE_REF	Category Code Reference	This table contains reference (domain) information about particular uses of a real property. These codes are service specific.	Asset	Core	Base	Reference	amcorbasref
345	CHAIR	Chair	This table contains reference (domain) information about chairs.	Asset	Equipment	Minor Property	Interior	amequiprint
394	CHANNEL_SERVICE	Channel Service	This table contains information about telecommunication (telephone) channel service units.	Asset	Facility	Building	Telecommunication	amfacblgtel
423	CHANNEL_SERVICE_TYPE_REF	Channel Service Type Reference	This table contains information about different types of channel services.	Asset	Facility	Building	Telecommunicaton	amfacblgtel
136	CHILLER	Chiller	This table contains information about a chiller which is a packaged unit containing a cooler (evaporator), refrigerant compressors, and a condenser.	Asset	Facility	Building	Mechanical	amfacblgmec
272	CHILLER_TYPE_REF	Chiller Type Reference	This table contains reference (domain) information about types of chillers.	Asset	Facility	Building	Mechanical	amfacblgmec
145	CIRCUIT	Circuit	This table contains information about an electrical circuit which is a collection of nodes and sections that emanate from a single common source.	Asset	Facility	Building	Electrical	amfacblgele
164	CIRCUIT_BREAKER	Circuit Breaker	This table contains information about a device used to connect and disconnect electrical loads.	Asset	Facility	Building	Electrical	amfacblgele

FMSFIE Release 2.40 Tables								
Date: 9/20/2004								
Key Column	TablePhysicalName	Table Common Name	TableDefinition	SetName	ClassName	SubclassName	FamilyName	InformationModelCode
162	CIRCUIT_BREAKER_TYPE_REF	Circuit Breaker Type Reference	This table contains reference (domain) information about types of electrical circuit breakers.	Asset	Facility	Building	Electrical	amfacblgele
157	CIRCUIT_TYPE_REF	Circuit Type Reference	This table contains reference (domain) information about types of circuits.	Asset	Facility	Building	Electrical	amfacblgele
105	CLEANOUT	Cleanout	This table contains information about a fitting installed on pipe runs that provide access to the pipe interior for maintenance service capabilities.	Asset	Facility	Building	Plumbing	amfacblgplu
273	CLEANOUT_TYPE_REF	Cleanout Type Reference	This table contains reference (domain) information about types of cleanouts.	Asset	Facility	Building	Plumbing	amfacblgplu
395	CLOCK	Clock	This table contains information about clocks.	Asset	Facility	Building	Telecommunicatons	amfacblgtel
144	COIL	Coil	This table contains information about devices which are extended surface-tubular elements providing a heat transfer capabilities.	Asset	Facility	Building	Mechanical	amfacblgmec
274	COIL_TYPE_REF	Coil Type Reference	This table contains reference (domain) information about types of coils.	Asset	Facility	Building	Electrical	amfacblgmec
25	COLOR_REF	Color Reference	This table contains reference (domain) information about colors and shades of colors	Asset	Core	Base	Reference	amcorbasref
26	COLOR_TYPE_REF	Color Type Reference	This table contains reference (domain) information about a grouping of parts or roles to which the color is applied on or to an asset object	Asset	Core	Base	Reference	amcorbasref
331	COLUMN_CONNECTION_TYPE_REF	Column Connection Type Reference	This table contains reference (domain) information about different methods for connecting or splicing together of structural columns and beams.	Asset	Facility	Building	Structural	amfacblgstr
108	COMPRESSOR	Compressor	This table contains information about compressors.	Asset	Facility	Building	Plumbing	amfacblgplu
275	COMPRESSOR_TYPE_REF	Compressor Type Reference	This table contains reference (domain) information about types of compressors.	Asset	Facility	Building	Mechanical	amfacblgmec
367	COMPUTER_SYSTEM	Computer System	This table contains information about computer systems.	Asset	Facility	Building	Security	amfacblgsec
460	COMPUTER_TYPE_REF	Computer Type Reference	This table contains information about types of computers.	Asset	Facility	Building	Telecommunications	amfacblgtel
302	CONCRETE_MEMBER	Concrete Member	This table contains information about concrete members of a building or structure.	Asset	Facility	Building	Structural	amfacblgstr
305	CONCRETE_POUR_TYPE_REF	Concrete Pour Type Reference	This table contains reference (domain) information about different types of poured, or cast-in-place, concrete.	Asset	Facility	Building	Structural	amfacblgstr
135	CONDENSOR	Condensor	This table contains information about condensers.	Asset	Facility	Building	Mechanical	amfacblgmec

FMSFIE Release 2.40 Tables								
Date: 9/20/2004								
Key Column	TablePhysicalName	Table Common Name	TableDefinition	SetName	ClassName	SubclassName	FamilyName	InformationModelCode
271	CONDENSOR_TYPE_REF	Condensor Type Reference	This table contains reference (domain) information about types of condensors.	Asset	Building	Building	Mechanical	amfacblgmec
344	CONDITION_TYPE_REF	Condition Type Reference	This table contains reference (domain) information about the condition types of items and improvements.	Asset	Core	Base	Reference	amcorbasref
392	CONDUIT	Conduit	This table contains information about conduit for cables and wiring.	Asset	Facility	Utility	Electrical	amfacutlele
88	CONGRESSIONAL_DISTRICT_REF	Congressional District Reference	This table contains reference (domain) information about an area having representation in a Congress	Organization	Core	Base	Reference	omcorbasref
2	CONSTANT_FACTOR	Constant Factor	This table contains information about a constant or factor used in a business rule or calculation	Asset	Core	Base	Generic	amcorbasgen
53	CONSTRUCTION_TYPE_REF	Construction Type Reference	This table contains reference (domain) information about the type of construction and design used for an asset object	Asset	Facility	Base	Reference	amfacbasref
84	CONTRACT	Contract	This table contains information about a contract	Financial	Contracts	Base	None	fmctrbasnon
280	CONTROL_DEVICE	Control Device	This table contains information about control devices used in security systems.	Asset	Facility	Building	Security	amfacblgsec
424	CONTROL_DEVICE_TYPE_REF	Control Device Type Reference	This table contains information about different types of control devices.	Asset	Facility	Building	Security	amfacblgsec
24	CONTROL_NUMBER_TYPE_REF	Control Number Type Reference	This table contains reference (domain) information about a grouping of control numbers based on their name or purpose	Asset	Core	Base	Reference	amcorbasref
142	CONVECTOR	Convectector	This table contains information about a HVAC convectector which is a heating device utilizing a heat source and natural convection.	Asset	Facility	Building	Mechanical	amfacblgmec
276	CONVECTOR_TYPE_REF	Convectector_Type Reference	This table contains reference (domain) information about types of convectors.	Asset	Facility	Building	Mechanical	amfacblgmec
150	COOLING_UNIT	Cooling Unit	This table contains information about cooling units.	Asset	Facility	Building	Mechanical	amfacblgmec
277	COOLING_UNIT_TYPE_REF	Cooling Unit Type Reference	This table contains reference (domain) information about types of cooling units.	Asset	Facility	Building	Mechanical	amfacblgmec
339	COST_PURCHASE_DETAIL	Cost Purchase Detail	This table contains cost information about purchases.	Asset	Facility	Building	Interior Design	amfacblgint
27	COST_TYPE_REF	Cost Type Reference	This table contains reference (domain) information about a grouping of costs associated to an asset object based on what the cost's purpose or use	Financial	Core	Base	Reference	fmcobasref
89	COUNTRY_REF	Country Reference	This table contains reference (domain) information about countries	Organization	Core	Base	Reference	omcorbasref
90	COUNTY_REF	County Reference	This table contains information about counties or parishes	Organization	Core	Base	Reference	omcorbasref

FMSFIE Release 2.40 Tables								
Date: 9/20/2004								
Key Column	TablePhysicalName	Table Common Name	TableDefinition	SetName	ClassName	SubclassName	FamilyName	InformationModelCode
307	CURING_METHOD_REF	Curing Method Reference	This table contains reference (domain) information about different types of concrete curing methods.	Asset	Facility	Building	Structural	amfacblgstr
139	DAMPER	Damper	This table contains information about a HVAC damper which is used to manipulate the flow of air within a duct assembly.	Asset	Facility	Building	Mechanical	amfacblgmec
270	DAMPER_TYPE_REF	Damper Type Reference	This table contains reference (domain) information about types of dampers in ducts and mechanical systems.	Asset	Facility	Building	Mechanical	amfacblgmec
28	DATA_LINK_TYPE_REF	Data Link Type Reference	This table contains reference (domain) information about the type of system or file with which the graphical data link is associated	Asset	Core	Object	Reference	amcorobjref
398	DATA_SERVICE	Data Service	This table contains information about telecommunications data service units.	Asset	Facility	Building	Telecommunication	amfacblgtel
425	DATA_SERVICE_TYPE_REF	Data Service Type Reference	This table contains information about different types of data services.	Asset	Facility	Building	Telecommunication	amfacblgtel
322	DECK	Deck	This table contains information about structural decking components and members.	Asset	Facility	Building	Structural	amfacblgstr
297	DECK_DESIGN_TYPE_REF	Deck Design Type Reference	This table contains reference (domain) information about types of roof or floor deck designs.	Asset	Facility	Building	Structural	amfacblgstr
296	DECK_MAT_TYPE_REF	Deck Material Type Reference	This table contains reference (domain) information about types of roof or floor deck materials.	Asset	Facility	Building	Structural	amfacblgstr
338	DESK	Desk	This table contains information about desks.	Asset	Facility	Building	Interior Design	amfacblgint
404	DETECTION_DEVCE_TYPE_REF	Detection Device Type Reference	This table contains reference (domain) information about types of detection devices (e.g., fire and security).	Asset	Facility	Building	Electrical	amfacblgele
363	DETECTION_DEVICE	Detection Device	This table contains information about fire and security detection devices.	Asset	Facility	Building	Electrical	amfacblgele
402	DICTATION	Dictation	This table contains information about telecommunications dictation equipment.	Asset	Facility	Building	Telecommunication	amfacblgtel
359	DISCHARGE_DEVICE	Discharge Device	This table contains information about discharge devices used in fire protection.	Asset	Facility	Building	Fire Protection	amfacblgfir
464	DISCHARGE_DEVICE_TYPE_REF	Discharge Device Type Reference	This table contains reference (domain) information about types of discharge devices.	Asset	Facility	Building	Fire Protection	amfacblgfir
21	DOD_BASIC_CATEGORY_CODE_REF	DoD Basic Category Code Reference	This table contains reference (domain) information about the DoD standard code (3 digit code) that classifies asset objects by type or use	Asset	Core	Dod	Reference	amcordodref

FMSFIE Release 2.40 Tables								
Date: 9/20/2004								
Key Column	TablePhysicalName	Table Common Name	TableDefinition	SetName	ClassName	SubclassName	FamilyName	InformationModelCode
22	DOD_CATEGORY_GROUP_REF	DoD Category Group Reference	This table contains reference (domain) information about an aggregation of one or more DoD basic category codes that have similar functional purpose.	Asset	Core	Dod	Reference	amcordodref
30	DOD_FAC_ANALYSIS_CAT_CD_REF	DoD Facility Analysis Category Code Reference	This table contains reference (domain) information about a grouping of Department of Defense Service Category Codes (SCC) used to capture cost factors and units of measure.	Asset	Core	Dod	Reference	amcordodref
31	DOD_FAC_CODE_MEASURE	DoD FAC Code Measure XREF	This table contains information about the units of measures associated to a DoD Facility Analysis Code (FAC) code used for financial and conditional reporting.	Asset	Core	Dod	Reference	amcordodref
86	DOD_ORGANIZATION	DoD Organization	In addition to the information found in the ORGANIZATION table, this table contains detailed information about the Department of Defense organizational breakdown.	Organization	Core	Base	Generic	omcorbasgen
61	DOOR	Door	This table contains information about a door component that provides passage within, into, or out of an asset	Asset	Facility	Building	Architectural	amfacblgarc
298	DOOR_CORE_TYPE_REF	Door Core Type Reference	This table contains reference (domain) information about the composition of door cores (i.e., center section).	Asset	Facility	Building	Architectural	amfacblgarc
63	DOOR_FUNCTION_TYPE_REF	Door Function Type Reference	This table contains reference (domain) information about a grouping of doors based upon their operational type.	Asset	Facility	Building	Architectural	amfacblgarc
56	DOOR_SWING_TYPE_REF	Door Swing Type Reference	This table contains reference (domain) information about a grouping based on the door swing direction	Asset	Facility	Building	Architectural	amfacblgarc
253	DOOR_TYPE_REF	Door Type Reference	This table contains reference (domain) information about types of doors.	Asset	Facility	Building	Architectural	amfacblgarc
299	DOOR_WINDOW_MAT_TYPE_REF	Door Window Material Type Reference	This table contains reference (domain) information about the composition of door, windows, door frames, and window frames.	Asset	Facility	Building	Architectural	amfacblgarc
300	DOOR_WINDOW_USAGE_TYPE_REF	Door Window Usage Type Reference	This table contains reference (domain) information about the usage (i.e., interior or exterior) of doors and windows.	Asset	Facility	Building	Architectural	amfacblgarc
124	DOWNSPOUT	Downspout	This table contains information about a downspout that discharges rain water from the roof to the ground level, or into a storm water system.	Asset	Facility	Building	Plumbing	amfacblgplu
278	DOWNSPOUT_TYPE_REF	Downspout Type Reference	This table contains reference (domain) information about types of downspouts.	Asset	Facility	Building	Plumbing	amfacblgplu
110	DRAIN	Drain	This table contains information about a trap device installed from the fixture to the junction of any other drain pipe.	Asset	Facility	Building	Plumbing	amfacblgplu

FMSFIE Release 2.40 Tables								
Date: 9/20/2004								
Key Column	TablePhysicalName	Table Common Name	TableDefinition	SetName	ClassName	SubclassName	FamilyName	InformationModelCode
279	DRAIN_TYPE_REF	Drain Type Reference	This table contains reference (domain) information about types of drains.	Asset	Facility	Building	Plumbing	amfacblgplu
115	DRYER	Dryer	This table contains information about a drying device for compressed air, industrial air & water, and wastewater air.	Asset	Facility	Building	Plumbing	amfacblgplu
269	DRYER_TYPE_REF	Dryer Type Reference	This table contains reference (domain) information about types of drying devices for compressed air, industrial air & water, and wastewater air.	Asset	Facility	Building	Mechanical	amfacblgmec
132	DUCT	Duct	This table contains information about a device that conveys air from one location to another, or contains wiring.	Asset	Facility	Building	Mechanical	amfacblgplu
268	DUCT_TYPE_REF	Duct Type Reference	This table contains reference (domain) information about types of mechanical heating, ventilation, air conditioning, and cooling system ducts.	Asset	Facility	Building	Mechanical	amfacblgmec
159	ELECTRIC_CONTACTOR	Electrical Contactor	This table contains information about electrical contactors.	Asset	Facility	Building	Electrical	omcorbasnon
280	ELECTRIC_CONTACTOR_TYPE_REF	Electric Contactor Type Reference	This table contains reference (domain) information about types of electrical contactors.	Asset	Facility	Building	Electrical	amfacblgele
160	ELECTRIC_SWITCH	Electric Switch	This table contains information about electrical switches.	Asset	Facility	Building	Electrical	amfacblgele
267	ELECTRIC_SWITCH_TYPE_REF	Electric Switch Type Reference	This table contains reference (domain) information about types of electric switches.	Asset	Facility	Building	Electrical	amfacblgele
161	ELECTRIC_TRIP_TYPE_REF	Electric Trip Type Reference	This table contains reference (domain) information about electrical trip types.	Asset	Facility	Building	Electrical	amfacblgele
442	ELECTRICAL_SERVICE_TYPE_REF	Electrical Service Type Reference	This table contains information about different types of electrical services.	Asset	Facility	Building	Electrical	amfacblgele
412	ENCLOSURE_TYPE_REF	Enclosure Type Reference	This table contains reference (domain) information about types of Enclosures.	Asset	Facility	Building	Electrical	amfacblgele
218	ENV_ANALYTE_REF	Environmental Analyte Reference	This table contains reference (domain) information about environmental compounds, substances, and/or conditions for which samples are analyzed.	Environmental	Compliance	Sampling	Reference	emcomsamref
240	ENV_CHECKLIST	Environmental Checklist	This table contains information about questions and answers in a National Environmental Protection Act (NEPA) compliance environmental checklist associated with a given work item.	Environmental	Compliance	NEPA	Checklist	emcomnepchk
246	ENV_CHECKLIST_MESSAGE	Environmental Checklist Message	This table contains reference (domain) information about National Environmental Protection Act (NEPA) compliance environmental checklist messages.	Environmental	Compliance	NEPA	Checklist	emcomnepchk

FMSFIE Release 2.40 Tables								
Date: 9/20/2004								
Key Column	TablePhysicalName	Table Common Name	TableDefinition	SetName	ClassName	SubclassName	FamilyName	InformationModelCode
248	ENV_CHECKLIST_QUESTION	Environmental Checklist Question	This table contains reference (domain) information about National Environmental Protection Act (NEPA) compliance environmental checklist questions.	Environmental	Compliance	NEPA	Checklist	emcomnepchk
249	ENV_CHECKLIST_QUESTION_SEQ	Environmental Checklist Question Sequence	This table contains reference (domain) information about the decision tree sequence National Environmental Protection Act (NEPA) compliance environmental checklist questions.	Environmental	Compliance	NEPA	Checklist	emcomnepchk
243	ENV_CHECKLIST_RESULTS	Environmental Checklist Results	This table contains National Environmental Protection Act (NEPA) compliance environmental checklist question results.	Environmental	Compliance	NEPA	Checklist	emcomnepchk
245	ENV_CHECKLIST_SECTION_REF	Environmental Checklist Section Reference	This table contains reference (domain) information about National Environmental Protection Act (NEPA) compliance environmental checklist sections.	Environmental	Compliance	NEPA	Reference	emcomnepchk
244	ENV_CHECKLIST_SECTION_STATUS	Environmental Checklist Section Status	This table contains status information concerning the completion of questions in a National Environmental Protection Act (NEPA) compliance environmental checklist section.	Environmental	Compliance	NEPA	Checklist	emcomnepchk
236	ENV_COOKBOOK_CLASS_REF	Environmental Cookbook Class Reference	This table contains reference (domain) information about classes of guidance, or instructions, (called sets of recipes or cookbooks) for implementing and accomplishing various environmental compliance activities and requirements.	Environmental	Compliance	Base	Reference	emcombasref
235	ENV_COOKBOOK_REF	Environmental Cookbook Reference	This table contains reference (domain) information about guidance, or instructions, (called sets of recipes or cookbooks) for implementing and accomplishing various environmental compliance activities and requirements.	Environmental	Compliance	Base	Reference	emcombasref
209	ENV_EVENT_TYPE_REF	Environmental Event Type Reference	This table contains reference (domain) information about environmental events.	Environmental	Compliance	Base	Reference	emcombasref
241	ENV_FEATURE_TYPE_REF	Environmental Feature Type Reference	This table contains reference (domain) information about types of environmental features.	Environmental	Compliance	Base	Reference	emcombasref
200	ENV_LIMIT_TYPE_REF	Environmental Limit Type Reference	This table contains reference (domain) information about different types of environmental limits.	Environmental	Compliance	Sampling	Reference	emcomsamref
217	ENV_METHOD_ANALYTE	Environmental Method Analyte Cross Reference	This table contains a cross reference of environmental analyte records to environmental method records.	Environmental	Compliance	Sampling	None	emcomsamnon

221	ENV_METHOD_REF	Environmental Method Reference	This table contains reference (domain) information about environmental methods.	Environmental	Compliance	Sampling	Reference	emcomsamref
203	ENV_METHOD_REFERENCE_REF	Environmental Method Reference Reference	This table contains reference (domain) information about environmental analytical method references.	Environmental	Compliance	Sampling	Reference	emcomsamref
199	ENV_METHOD_SAMPLE_GROUP	Environmental Method Sample Group Cross Reference	This table contains a cross reference of environmental analytical methods and environmental sample groups.	Environmental	Compliance	Sampling	None	emcomsamnon
216	ENV_NOTE	Environmental Note	This table contains information about environmental notes.	Environmental	Core	Base	Generic	emcorbasgen
194	ENV_OBJECT_LIMIT	Environmental Object Limit	This table contains information about environmental object limits.	Environmental	Compliance	Sampling	None	emcomsamnon
251	ENV_OBJECT_ORDER	Environmental Object Order	This table contains information about Environmental Object Orders.	Environmental	Compliance	Sampling	None	emcomsamnon
190	ENV_OBJECT_RESULT	Environmental Object Result	This table contains information about the results of the environmental analysis for an object.	Environmental	Compliance	Sampling	None	emcomsamnon
252	ENV_ORDER_TYPE_REF	Environmental Order Type Reference	This table contains information about Environmental Order Types.	Environmental	Compliance	Sampling	Reference	emcomsamref
225	ENV_PILLAR_REF	Environmental Pillar Reference	This table contains reference (domain) information about major environmental program areas.	Environmental	Core	Base	Reference	emcorbasref
233	ENV_PILLAR_SUB_CAT_REF	Environmental Pillar Sub Category Reference	This table contains reference (domain) information about environmental program sub categories.	Environmental	Core	Base	Reference	emcorbasref
239	ENV_PRIORITY_REF	Environmental Priority Reference	This table contains reference (domain) information about environmental priorities.	Environmental	Compliance	Base	Reference	emcombasref
195	ENV_PROCESS_REF	Environmental Process Reference	This table contains reference (domain) information about environmental processes.	Environmental	Compliance	Sampling	Reference	emcomsamref
186	ENV_PRODUCT_DETAIL	Environmental Product Detail	This table contains information about environmental product details.	Environmental	Compliance	Sampling	None	emcomsamnon
207	ENV_PRODUCT_DETAIL_TYPE_REF	Environmental Product Detail Type Reference	This table contains reference (domain) information about types of product details.	Environmental	Compliance	Sampling	Reference	emcomsamref
220	ENV_PROGRAM_REF	Environmental Program Reference	This table contains reference (domain) information about environmental programs.	Environmental	Core	Base	Reference	emcorbasref

97	SERVICE_CATEGORY_REF	Service Category Reference	This table contains reference (domain) information about the branch of service within DoD	Organization	Core	Base	Reference	omcorbasref
283	SIGNAL_DEVICE	Signal Device	This table contains information about signal devices.	Asset	Facility	Building	Security	amfacblgsec
443	SIGNAL_DEVICE_TYPE_REF	Signal Device Type Reference	This table contains information about different uses of signal devices.	Asset	Facility	Building	Security	amfacblgsec

FMSFIE Release 2.40 Tables								
Date: 9/20/2004								
Key Column	TablePhysicalName	Table Common Name	TableDefinition	SetName	ClassName	SubclassName	FamilyName	InformationModelCode
19	SPACE	Space	This table contains information about a space component which defines a specific boundary or zone within a facility building structure.	Asset	Facility	Building	Space	amfacblgspace
46	SPACE_TYPE_REF	Space Type Reference	This table contains reference (domain) information about a grouping of space based on their name, purpose or similar characteristics	Asset	Facility	Building	Space	amfacblgspace
18	SPACE_USAGE	Space Usage	This table contains information about the function or purpose of a space component that is assigned to an organizational entity.	Asset	Facility	Building	Space	amfacblgspace
49	SPACE_USAGE_TYPE_REF	Space Usage Type Reference	This table contains reference (domain) information about a grouping of space based on its function.	Asset	Facility	Building	Space	amfacblgspace
373	SPEAKER	Speaker	This table contains information about computer, intercom, or other types of speakers.	Asset	Facility	Building	Telecommunications	amfacblgtel
444	SPEAKER_TYPE_REF	Speaker Type Reference	This table contains information about different types of speakers.	Asset	Facility	Building	Telecommunications	amfacblgtel
47	SPECIFICATION_TYPE_REF	Specification Type Reference	This table contains reference (domain) information about a grouping of numeric values with or without units based on their name, function, description or similar characteristics	Asset	Core	Base	Reference	amcorbasref
380	SPLICE	Splice	This table contains information about splices used to connect wiring.	Asset	Facility	Building	Electrical	amfacblgele
445	SPLICE_TYPE_REF	Splice Type Reference	This table contains information about different types of splices.	Asset	Facility	Building	Electrical	amfacblgele
365	SPRINKLER	Sprinkler	This table contains information about fire protection sprinklers.	Asset	Facility	Building	Fire Protection	amfacblgfire
407	SPRINKLER_TYPE_REF	Sprinkler Type Reference	This table contains reference (domain) information about types of Fire Protection Sprinklers.	Asset	Facility	Building	Fire Protection	amfacblgfire
154	STANDARD_TYPE_REF	Standard Type Reference	This table contains reference (domain) information about types of industry or construction standards.	Asset	Facility	Building	Electrical	amfacblgele
99	STATE_REF	State Reference	This table contains reference (domain) information about states or provinces	Organization	Core	Base	Reference	omcorbasref
48	STATUS_REF	Status Reference	This table contains reference (domain) information about a grouping based on the standing of an asset object	Asset	Core	Base	Reference	amcorbasref
45	STATUS_TYPE_REF	Status Type Reference	This table contains reference (domain) information about a grouping of statuses based on their name, function or description	Asset	Core	Base	Reference	amcorbasref
325	STEEL_JOIST	Steel Joist	This table contains information about structural steel joists.	Asset	Facility	Building	Structural	amfacblgstr

FMSFIE Release 2.40 Tables								
Date: 9/20/2004								
Key Column	TablePhysicalName	Table Common Name	TableDefinition	SetName	ClassName	SubclassName	FamilyName	InformationModelCode
121	STORAGE_TANK	Tank	This table contains information about Storage Tanks.	Asset	Facility	Utility	Tanks	amfacutltan
259	STORAGE_TANK_CAT_REF	Storage Tank Category Reference	This table contains reference (domain) information about categories of storage tanks.	Asset	Facility	Utility	Tanks	amfacutltan
258	STORAGE_TANK_TYPE_REF	Storage Tank Type Reference	This table contains reference (domain) information about types of storage tanks.	Asset	Facility	Utility	Tanks	amfacutltan
98	STREET_REF	Street Reference	This table contains reference (domain) information about streets but does not include any location information (county, state, country)	Organization	Core	Base	Reference	omcorbasref
328	STRUCTURAL_MEMBER	Structural Member	This table contains general information (e.g., usage, manufacturer, etc.) about structural members.	Asset	Facility	Building	Structural	amfacblgstr
310	STRUCTURAL_USAGE_TYPE_REF	Structural Usage Type Reference	This table contains reference (domain) information about different types, or categories, of structural usage (e.g., floor, roof).	Asset	Facility	Building	Structural	amfacblgstr
332	STRUCTURAL_WOOD_GRADE_TYPE_REF	Structural Wood Grade Type Reference	This table contains reference (domain) information about different commercial grade classificatons for structural wood beams, columns, & timbers.	Asset	Facility	Building	Structural	amfacblgstr
165	SWITCHBOARD	Switchboard	This table contains information about electrical switchboards.	Asset	Facility	Building	Electrical	amfacblgele
257	SWITCHBOARD_TYPE_REF	Switchboard Type Reference	This table contains reference (domain) information about types of electrical switchboards.	Asset	Facility	Building	Electrical	amfacblgele
281	SYSTEM_PROCESSOR	System Processor	This table contains information about computer system processors.	Asset	Facility	Building	Security	amfacblgsec
446	SYSTEM_PROCESSOR_TYPE_REF	System Processor Type Reference	This table contains information about different types of system processors.	Asset	Facility	Building	Security	amfacblgsec
349	TABLE	Table	This table contains information about tables.	Asset	Facility	Building	Interior Design	amfacblgint
447	TELECOM_DISTR_TYPE_REF	Telecom Distribution Type Reference	This table contains information about different types of telecommunication distribution system uses.	Asset	Facility	Building	Telecommunications	amfacblgtel
400	TELECOM_DISTRIBUTION	Telecommunication Distribution	This table contains information about telecommunications distribution systems.	Asset	Facility	Building	Telecommunication	amfacblgtel
137	TERMINAL_DEVICE	Terminal Device	This table contains information about terminal devices.	Asset	Facility	Building	Mechanical	amfacblgmec
448	TERMINAL_DEVICE_TYPE_REF	Terminal Device Type Reference	This table contains information about different types of terminal devices.	Asset	Facility	Building	Telecommunications	amfacblgmec
174	TRANSFORMER	Transformer	This table contains information about electrical transformers.	Asset	Facility	Utility	Electrical	amfacutlele

FMSFIE Release 2.40 Tables								
Date: 9/20/2004								
Key Column	TablePhysicalName	Table Common Name	TableDefinition	SetName	ClassName	SubclassName	FamilyName	InformationModelCode
256	TRANSFORMER_TYPE_REF	Transformer Type Reference	This table contains reference (domain) information about types of electrical transformers.	Asset	Facility	Utility	Electrical	amfacutlele
146	TRAP	Trap	This table contains information about traps.	Asset	Facility	Building	Plumbing	amfacblgplu
255	TRAP_TYPE_REF	Trap Type Reference	This table contains reference (domain) information about types fo traps.	Asset	Facility	Building	Plumbing	amfacblgplu
449	TRIP_TYPE_REF	Trip Type Reference	This table contains information about different types of electrical circuit breaker and switch trip devices.	Asset	Facility	Building	Electrical	amfacblgele
330	TRUSS_MEMBER	Truss Member	This table contains information about structural truss members.	Asset	Facility	Building	Structural	amfacblgstr
172	UNINTERRUPTABLE_POWER_SUPPLY	Uninterruptable Power Supply	This table contains information about uninterruptable electrical power supply.	Asset	Facility	Building	Electrical	amfacblgele
50	UNIQUE_CAPABILITY_REF	Unique Capability Reference	This table contains reference (domain) information a unique capability of a mission or function as it applies to a space usage. (Alternate Asset ID)	Asset	Core	Base	Reference	amcorbasref
100	UNIT_IDENTIFICATION_CODE_REF	Unit Identification Code Reference	This table contains reference (domain) information about codes which represent a group based on their activity. (Used in Navy).	Organization	Core	Base	Reference	omcorbasref
51	UNIT_OF_MEASURE_REF	Unit of Measure Reference	This table contains reference (domain) information about a standard measurement used to quantify the capacity or size of an asset object	Asset	Core	Base	Reference	amcorbasref
450	UPS_TYPE_REF	Uninterruptable Power Supply Type Reference	This table contains information about different types of uninterruptable power supply devices.	Asset	Facility	Building	Electrical	amfacblgele
416	USE_STATUS_TYPE_REF	Use Status Type Reference	This table contains reference (domain) information about types of Object Usage Status.	Asset	Core	Base	Reference	amcorbasref
391	UTILITY_VAULT	Utility Vault	This table contains information about utility vaults for cables and wiring.	Asset	Facility	Utility	Telecommunication	amfacutltel
451	UTILITY_VAULT_TYPE_REF	Utility Vault Type Reference	This table contains information about different types of utility vaults.	Asset	Facility	Utility	Telecommunications	amfacutltel
143	VALVE	Valve	This table contains information about valves.	Asset	Facility	Building	Plumbing	amfacblgplu
293	VALVE_TYPE_REF	Valve Type Reference	This table contains reference (domain) information about types of valves.	Asset	Facility	Building	Plumbing	amfacblgplu
128	VENTILATOR	Ventilator	This table contains information about ventilators.	Asset	Facility	Building	Mechanical	amfacblgmec
452	VENTILATOR_TYPE_REF	Ventilator Type Reference	This table contains information about different types of ventilators.	Asset	Facility	Building	Mechanical	amfacblgmec
453	VIBRATION_ISOLATOR_TYPE_REF	Vibration Isolator Type Reference	This table contains information about different types of vibration isolators.	Asset	Facility	Building	Mechanical	amfacblgmec

Date: 9/20/2004								
Key Column	TablePhysicalName	Table Common Name	TableDefinition	SetName	ClassName	SubclassName	FamilyName	InformationModelCode
393	VIDEO	Video	This table contains information about video equipment and accessories.	Asset	Facility	Building	Telecommunications	amfacblgtel
454	VIDEO_TYPE_REF	Video Type Reference	This table contains information about different types of videos.	Asset	Facility	Building	Telecommunications	amfacblgtel
67	WALL	Wall	This table contains information about wall components that provide separation between spaces in an asset and or the environment	Asset	Facility	Building	Architectural	amfacblgarc
59	WALL_CLASSIFICATION_TYPE_REF	Wall Classification Type Reference	This table contains reference (domain) information about the class of wall usage determined by its structural integrity	Asset	Facility	Building	Architectural	amfacblgarc
292	WALL_TYPE_REF	Wall Type Reference	This table contains reference (domain) information about types of walls.	Asset	Facility	Building	Architectural	amfacblgarc
334	WARRANTY_TYPE_REF	Warranty Type Reference	This table contains reference (domain) information about different types of warranties, and warranty provisions.	Asset	Core	Base	Reference	amcorbasref
104	WATER_HEATER	Water Heater	This table contains information about water heaters.	Asset	Facility	Building	Plumbing	amfacblgplu
288	WATER_HEATER_TYPE_REF	Water Heater Type Reference	This table contains reference (domain) information about types of water heaters.	Asset	Facility	Building	Plumbing	amfacblgplu
106	WATER_SOFTENER	Water Softener	This table contains information about water softeners.	Asset	Facility	Building	Plumbing	amfacblgplu
289	WATER_SOFTENER_TYPE_REF	Water Softener Type Reference	This table contains reference (domain) information about types of water softeners.	Asset	Facility	Building	Plumbing	amfacblgplu
68	WINDOW	Window	This table contains information about a window component providing visibility and passage into and out of an asset	Asset	Facility	Building	Architectural	amfacblgarc
346	WINDOW_TREATMENT	Window Treatment	This table contains information about window treatment.	Asset	Facility	Building	Interior Design	amfacblgint
254	WINDOW_TYPE_REF	Window Type Reference	This table contains reference (domain) information about types of windows.	Asset	Facility	Building	Architectural	amfacblgarc
156	WIRE	Wire	This table contains information about wires.	Asset	Facility	Building	Electrical	amfacblgele
155	WIRE_CONFIGURATION_TYPE_REF	Wire Configuration Type Reference	This table contains reference (domain) information about types of electrical wiring configurations.	Asset	Facility	Building	Electrical	amfacblgele
152	WIRE_TYPE_REF	Wire Type Reference	This table contains reference (domain) information about electrical wire types.	Asset	Facility	Building	Electrical	amfacblgele
151	WIRING_DEVICE	Wiring Device	This table contains information about electrical wiring devices.	Asset	Facility	Building	Electrical	amfacblgele
153	WIRING_DEVICE_TYPE_REF	Wiring Device Type Reference	This table contains reference (domain) information about types of electrical wiring devices.	Asset	Facility	Building	Electrical	amfacblgele
329	WOOD_MEMBER	Wood Member	This table contains information about structural wood members.	Asset	Facility	Building	Structural	amfacblgstr
