

SDSFIE RELEASE NOTES (RELEASE 2.31 CHANGES)

Homeland Security Program (HSIP)

Several modifications to the SDSFIE were made to accommodate the HSIP program and incorporating the 103 essential data sets from National Geospatial Intelligence Agency.

A/E/C CADD Standard Correlation

All modifications made to SDSFIE features were correlated to the A/E/C CADD Standard 2.0. The correlation can be found in the tssdsfet.mda library.

Several modifications were made to the SDSFIE library to accommodate request from:

- *Air Force*
- *Army*
- *Army National Guard (NGB; ARNG; MANG)*
- *Army Integrated Training Area Management (ITAM)*
- *Naval Air Systems Command (NavAir)*
- *Navy*
- *Open GIS Consortium (OGC) AirMat Standard*
- *US Corps of Engineers (USACE)*
- *US Geological Survey (USGS)*

Entity Set Summary Change Information

Auditory	Boundary	Buildings	Cadastre	Climate	Common
Communications	Cultural	Demographics	Ecology	Env Hazards	Fauna
Flora	Future Projects	Geodetic	Geology	Hydrography	Improvement
Land Status	Landform	Military Operations	Olfactory	Soil	Transportation
Utilities	Visual				

Note: Items in **BLUE** indicate changes.

-- Release Note Script for boundary

No New Entity Classes in this Set

New Entity Types:

entry_point Point The location of a point where entry/access is controlled between political jurisdictions, principally nations. These may exist along the nation's border, at designated ports of entry, or at airport locations.

New Data Tables:

bdjurpoe This table contains data about point of entries.

-- Release Note Script for buildings

No New Entity Classes in this Set

New Entity Types:

potential_explosives_site Point/Polygon Potential explosive sites.

New Data Tables:

bggenpes This table contains information about the potential explosive sites.

-- Release Note Script for cadastre

No New Entity Classes in this Set

New Entity Types:

dod_property_interest_line	String/Chain	Property boundary line of interests held by outside agencies or enterprises for land under the control of the Department of Defense.
campus_complex_site	Point/Polygon	An area associated with a common function or purpose which normally serves to contain multiple buildings and related facilities. The area has a common purpose which is most notably educational, health services, sports and/or recreation, or religious.

New Data Tables:

cdrelcpx	This table contains information about campuses or complexes which are containers for buildings and other features which serve a common purpose.
----------	---

-- Release Note Script for climate

No New Entity Classes in this Set

New Entity Types:

storm_track_line	String/Chain	Storm track of a major storm.
storm_observation_point	Point	Storm observation point, usually every 6 hours.

New Data Tables:

clgenso	b	This table contains information about the storm observation point, usually every 6 hours by NWS aircraft.
clgenst	m	This table contains information about the storm track of a major storm.

-- Release Note Script for ecology

New Entity Classes:

ecology_management Ecology management areas including ecoregions.

New Entity Types:

ecology_management_site Point/Polygon Ecology management areas including ecoregions.

New Data Tables:

ecmgttsit This table contains data about the ecology management areas including ecoregions.

-- Release Note Script for hydrography

No New Entity Classes in this Set

New Entity Types:

shoreline_complex_area	G/GT Polygon	Interpretation of the paleo shorelines.
water_management_area	G/GT Polygon	Management area for environmentally sensitive water courses or bodies.

New Data Tables:

hycznclx	This table contains interpretations of the paleo shorelines.
hymgtwat	This table contains the data about the management area for environmentally sensitive water courses or bodies.

-- Release Note Script for improvement

No New Entity Classes in this Set

New Entity Types:

athletic_miscellaneous_area G/GT Polygon

Non-traditional athletic areas that do not use a court or field, such as a rock climbing face.

dredging_auth_depth_area G/GT Polygon

Polygonal features that represent the plan view extent of the area over which a channel design template applies.

barricade_site Point/Polygon

An intervening barrier, natural or artificial, of such type, size, and construction as to limit in a prescribed manner the effect of an explosion on nearby buildings or exposures.

recreation_trail_site Point/Polygon

Trails for recreational activities (running/walking, biking, hiking).

New Data Tables:

imathmis This table contains data about miscellaneous athletic areas.

imdrgdep This table contains the data about the depth authorized to dredge to define for certain reaches not necessarily related to areas being dredged.

imgenbar This table contains information about an intervening barrier.

-- Release Note Script for land_status

No New Entity Classes in this Set

New Entity Types:

interest_point Point Points of general interest including, but not limited to, environmental, cultural, historic and civic sites.

New Data Tables:

lsrndpoi This table contains points of general interest including, but not limited to, environmental, cultural, historic and civic sites.

-- Release Note Script for landform

No New Entity Classes in this Set

New Entity Types:

channel_xsection_line	String/Chain	A hydrographic survey is made up of multiple cross sections. A cross section is a polyline feature representing the plan view of the measured section.
elevation_profile_point	Point	Individual points that make up a channel cross section or beach profile.

New Data Tables:

lfbthxsl	This table contain information about a hydrographic survey made up of multiple cross sections.
lfbtinv	This table contains data of all the hydrographic survey inventory.
lfbtispa	This table contains data about the measured values from analysis of sediment profile images.
lfbtisvg	This table contains data about the inventory of gridded hydrographic surveys referring to the GIS grid for each survey.
lfhypepp	This table contains data about elevations profile points.

-- Release Note Script for military_operations

No New Entity Classes in this Set

New Entity Types:

chemical_zone_transition_point Point Chemical Zone Transition Point (ZTP) used to direct personnel safely from contaminated chemical zones to uncontaminated chemical zones on base.

New Data Tables:

mlsecczt This table contains data about Chemical Zone Transition Point (ZTP) used to direct personnel safely from contaminated chemical zones to uncontaminated chemical zones on base.

-- Release Note Script for transportation

New Entity Classes:

transportation_marine_si Information necessary for the management of transportation features which are related to the movement of ships and other large vessels from one location to another.

Changed Entity Type and Feature Class Names:

transportation_general gen_checkpoint Old name: checkpoint

New Entity Types:

channel_centerline	String/Chain	The center of the channel.
channel_station_line	String/Chain	A perpendicular line that intersects the channel area at a specified distance or event.
channel_tangent_area	G/GT Polygon	Straight portions of a channel that are associated with a single channel.
channel_tangent_line	String/Chain	Straight portions of a channel that are associated with a single channel.
port_facility_site	Point/Polygon	The location of a structure critical to the operations and/or maintenance of a port. Included are such things as container transfer facilities, fuel transfer facilities, and maintenance facilities.
waterfront_security_barrier_line	String/Chain	A barrier constructed for the purpose of securing port facilities.
vehicle_washrack_site	Point/Polygon	A concrete pad with a connected oil water separator on which to wash vehicles to prevent POL contamination of the ground.
road_feature_line	String/Chain	A feature associated with a road such as road signs, and traffic lights.
interchange_point	Point	The location of a place where traffic may be routed from one roadway to another.

New Data Tables:

trhrbfac	This table contains information about port facilities.
trhrbwsb	This table contains information about a barrier constructed for the purpose of securing port facilities.
trmartan	This table contains data about a perpendicular line that intersects the channel area at a specified distance or event.
trmricht	This table contains data about the channel template data table that stores toe, slope, and depth information related to a portion of a channel.
trvehint	This table contains data about interchanges.
trvehwsr	This table contains data about the vehicle washrack site.

-- Release Note Script for utilities

No New Entity Classes in this Set

New Entity Types:

electrical_head_bolt_outlet_point	Point	A device which supplies electric current in cold weather climates for vehicle heating.
fuel_farm_site	Point/Polygon	An area designated for the storage of POL products which normally includes multiple tanks (above or below ground), berms, and monitoring wells.
utility_pole_conduit_point	Point	A pipe, structure, tube, or tile used to house or protect piping, cables, or wires for various utilities.

Moved Entity Types:

Storm_sewer_culvert_line Moved from utilities_general to utilities_storm_system

New Data Tables:

utelehbo This table contains data about a device which supplies electric current in cold weather climates for vehicle heating.
utfulfrm This table contains data about a fuel system fuel farm.

OBJECT CLASS NAME CHANGES:

utilities_natural_gas_system_si	Old Name: ZONE	New Name: GAS_ZONE
utilities_natural_gas_system_si	Old Name: SECTION	New Name: GAS_SECTION

-- DBA Schema Changes for Current Release

New Tables:

bdjurpoe	This table contains data about point of entries.
bggenpes	This table contains information about the potential explosive sites.
cdrelcpx	This table contains information about campuses or complexes which are containers for buildings and other features which serve a common purpose.
clgensob	This table contains information about the storm observation point, usually every 6 hours by NWS aircraft.
clgenstm	This table contains information about the storm track of a major storm.
ecmgsit	This table contains data about the ecology management areas including ecoregions.
hycznclx	This table contains interpretations of the paleo shorelines.
hymgtwat	This table contains the data about the management area for environmentally sensitive water courses or bodies.
imathmis	This table contains data about miscellaneous athletic areas.
imdrgdep	This table contains the data about the depth authorized to dredge to defined for certain reaches not necessarily related to areas being dredged.
imgenbar	This table contains information about an intervening barrier.
lfbthxsl	This table contain information about a hydrographic survey made up of multiple cross sections.
lfbtiiinv	This table contains data of all the hydrographic survey inventory.
lfbtispa	This table contains data about the measured values from analysis of sediment profile images.
lfbtisvg	This table contains data about the inventory of gridded hydrographic surveys referring to the GIS grid for each survey.
lfhypepp	This table contains data about elevations profile points.
lsrndpoi	This table contains points of general interest including, but not limited to, environmental, cultural, historic and civic sites.
mlsecczt	This table contains data about Chemical Zone Transition Point (ZTP) used to direct personnel safely from contaminated chemical zones to uncontaminated chemical zones on base.
trhrbfac	This table contains information about port facilities.
trrbwsb	This table contains information about a barrier constructed for the purpose of

	securing port facilities.
trmartan	This table contains data about a perpendicular line that intersects the channel area at a specified distance or event.
trmricht	This table contains data about the channel template data table that stores toe, slope, and depth information related to a portion of a channel.
trvehint	This table contains data about interchanges.
trvehwsr	This table contains data about the vehicle washrack site.
utelehbo	This table contains data about a device which supplies electric current in cold weather climates for vehicle heating.
utfulfrm	This table contains data about a fuel system fuel farm.

Added Attributes:

In Table	aumgtabf	Add Attribute height_u_d
In Table	aumgtabf	Add Attribute owner_id
In Table	bddiseva	Add Attribute geocode_id
In Table	bddiseva	Add Attribute road_cl_d
In Table	bdjurdst	Add Attribute city_name
In Table	bdjurdst	Add Attribute source
In Table	bgadmhos	Add Attribute address_id
In Table	bgadmhos	Add Attribute fullsrv_d
In Table	bgcomfin	Add Attribute sponsor_d
In Table	bgcomplt	Add Attribute epa_fac
In Table	bgcomplt	Add Attribute mnftgi_d
In Table	bgcomshp	Add Attribute address_id
In Table	bgfactwr	Add Attribute fac_name
In Table	bgfactwr	Add Attribute NAICS_code
In Table	bgfactwr	Add Attribute NAICS_desc
In Table	bgfactwr	Add Attribute wav_typ_d
In Table	bggenstr	Add Attribute edu_lev_d
In Table	bggenstr	Add Attribute edu_typ_d

In Table	bggenstr	Add Attribute ems_typ_d

In Table	mlsftamo	Change	stor_desig from LENGTH - 20	to	30

New List Domain Tables:

airfield - AAFIF category	d_afifcd	Automated Air Facilities Information File (AAFIF) category.
airfield - approach light system	d_apltyp	Types of approach light systems.
airfield - arresting gear dir	d_argrdr	Types of arresting gear directions.
airfield - arresting gear type	d_agear	Type of arresting gear.
airfield - lcn calculation basis	d_lcnbis	Different types of airfield lcn calculation basis.
airfield - maximum tire pressure	d_mxtrpr	Maximum tire pressures.
airfield - pavement type	d_pvmtpe	Types of airfield pavement.
airfield - surface feature shape	d_dscshp	Types of airfield surface feature shapes.
airfield - VASI type	d_vasitp	Types of airfield Visual Approach Slope Indicators (VASI).
airfield-arr gear energy absorber	d_engabs	Different airfield arrest gear energy absorbers.
airfield-arr gear engaging device	d_engdev	Different types of airfield arrest gear engaging devices.
airfield-hardstand revetment type	d_rvttpe	Types of airfield hardstand revetment types.
airfield-pvmt evaluation method	d_pvtevl	Types of airfield pavement evaluation methods.
beneficial use	d_benuse	Beneficial Use Category.
cross section type	d_xsecty	Types of different cross sections.
hydrographic survey class code	d_hyscls	The hydrographic survey class code.
land - continent	d_contid	Types of land continents.
military base purpose	d_milpur	The different purposes of military bases.
sediment image type	d_spityp	Types of sediment sample image.
status code	d_tngsta	Status of the channel tangent area.
storm classification	d_stclas	Storm Status at observation points.
transportation-airspace surface	d_sfclse	Types of airspace surfaces for landing.
type list - broadcast facility	d_stutyp	The different types of broadcast facilities.
type list - broadcast wave	d_wavtyp	The different types of broadcast waves.
type list - climbing gear	d_cmbtyp	Allowable input for climbing gear types.
type list - comm antenna usage	d_antuse	The different types of the common antenna usages.
type list - complex	d_cmplx	The different types of complex.
type list - educational level	d_edulev	The different types of educational levels.
type list - ems facility	d_emstyp	The different types of EMS facilities.
type list - equipment types	d_eqptyp	The different types of equipment.

type list - fuel delivery method	d_delmth	The different types of methods for fuel delivery.
type list - geologic time eras	d_geoera	List of geologic time units by era.
type list - geologic time period	d_geoper	List of geologic time units by period.
type list - network affiliation	d_netaff	The differnet types of network affiliations.
type list - nozzle	d_typnoz	Types of nozzles.
type list - preserve owners	d_prstyp	Types of preserve owners.
type list - security barrier	d_wsbtyp	The different types of a security barrier.
type list - telephone facility	d_phnfac	The different types of telephone facilities.
type list - truck	d_tytrck	Types of service fuel trucks.
type list - water features	d_wattyp	Types of water features under management.
type list - water management	d_watmgt	Types of water management areas.
type list -geologic time epochs	d_geoepo	List of geologic time units by epoch.
utility - cart nozzle type	d_hbltyp	Allowable input for fuel hydrant head bolt outlet.
water treatment level	d_trtlev	The different levels for the water treatment.
